bright new beauty...

"Dutch Boy" Varnish Stain is "just what the doctor ordered" for renewing old surfaces; hiding scratches and flaws with a rich, lustrous finish.

for all wood surfaces...

Use "Dutch Boy" Varnish Stain for floors, furniture, woodwork—any previously finished interior wood surface that needs new beauty... rugged protection against scuffing and wear.

in one simple operation...

This combination of semi-transparent coloring materials and clear varnish means that you stain and varnish with the same coat.

Dutch Boy

VARNISH STAINS

America's best-known painter!

The smiling face of the little Dutch Boy has been a familiar one to paint users for generations. Millions of gallons of his paint are providing protection and beauty for the homes of America. That is why you can always buy "Dutch Boy" with complete confidence. His experience and his good name are your assurance that "Dutch Boy" is Good Paint's Other Name.

Dutch Boy
VARNISH STAINS

Two jobs at the same time!

"DUTCH BOY" VARNISH STAIN will produce a finished effect in one application—stain and varnish combined—on old wood surfaces that need renewing.

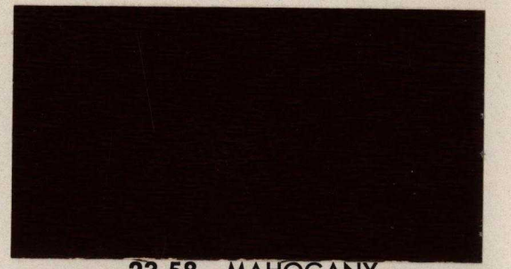
Yes, this time-saving, work-saving product removes the effects of time and wear with a shiny new coat... makes old furniture and woodwork like new again. "Dutch Boy" Varnish Stain simulates the color of expensive woods, like mahogany and walnut, without hiding the beauty of the natural wood grain over which it's applied.

Also this high quality stain is particularly easy to use... brushes on evenly... levels out naturally to a smooth rich finish. The stain sets in a few hours and dries to a hard surface overnight.

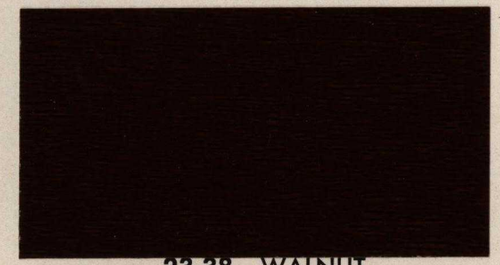
"Dutch Boy" Varnish Stain should always be applied over a clean surface, free of all dirt, wax or grease. If the previous finish is still glossy, sandpaper until there is sufficient "tooth" for the new coat.

If it is desired to change from a dark to a lighter finish, first apply a coat of Dutch Boy Ground Color.

Choose from these five popular finishes



23-58 MAHOGANY



23-38 WALNUT

23-54 MAPLE

23-44 OAK

23-34 DARK OAK

NOTE All of these stains are transparent, so the color of the finish is affected by the color of the surface over which the stain is applied. The colors shown here represent the effect over a relatively light surface. You can expect a variation in depth but not in tone over darker surfaces.
